

DRIVING INSTRUCTIONS TO ENSENADA, MEXICO

(A) Once you cross the border you will be driving up a bridge. Stay to your extreme right hand side of the lane, because your Ensenada/Rosarito off ramp (MEX 1D) comes immediately to the right side around the middle of the bridge.

(B) Once on (MEX 1D) Segunda Benito Juarez Internacional - Carretera Federal 1D, it will take you along the border fence line heading West bound. A few miles ahead you will begin to drive up the steep incline and once you reach the top of this incline, stay on your right lane, because you will need to exit the off ramp leading you to Ensenada/Rosarito (MEX 1D).

(C) Then stay in the middle lane (MEX 1D) and follow the road signs that will take you directly to the toll road to Ensenada/Rosarito.

(D) Once you have come to the third toll station, you will be on the outskirts of Ensenada. Within 4 1/2 miles of passing the third and final toll station stay on your right lane because the road will split and you want to head into downtown Ensenada (Lazaro Cardenas).

(E) When you drive into the downtown area you will have to pass three signal lights, and stay on you left lane. At the third and final signal light, you will be turning left and the Mission Santa Isabel Hotel (Headquarters Hotel) will be on that immediate corner (Lazaro Cardenas /Castillo).

If you pass the last signal light and begin passing a large white building "Riviera Centro Cultural Center" you have passed your destination. Make a safe U-Turn when possible and head back.
